any loss of goodwill or reputation;

any special, indirect or consequential losses in any case whether or not such losses were within the contemplation of the parties at the date of this Licence.

Nothing in this Licence shall exclude or limit liability of a party for death or personal injury resulting from the negligence of that party or its servants, agents or employees or for fraudulent misrepresentation.

The Licensor excludes any warranty that the Supplied Data is fit for any particular purpose.

Subject to clause 5.2, the Licensor's total liability in this Licence in aggregate shall not exceed the sum paid by the End User for the Supplied Data or £50, whichever is the greater.

INDEMNITY

The End User shall indemnify and keep indemnified the Licensor against all their liabilities and losses and all demands, liabilities, claims made, or proceedings brought, against the Licensor in respect of any loss or damage and against all costs and expenses reasonably incurred in dealing with or in settling such demands, liabilities, claims or proceedings arising from the breach of any provision of this Licence by the End User except to the extent that any such liability is directly attributable to any negligent act of the Licensor.

The Licensor shall notify the End User as soon as practicable and in any event within 10 working days of any demand or claim made, or proceedings brought against the Licensor in respect of any relevant loss or damage.

ASSIGNMENT AND SUBLICENSING

Neither Party may assign any of its rights or the benefit of all or part of this Licence without the prior written consent of the other party.

Except as expressly permitted by this Licence, the End User may not sub-license any of its rights or the benefit of all or part of this Licence without the prior written consent of the Licensor.

CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

For the purpose of section 1(2) of the Contracts (Rights of the Third Parties) Act 1999 the Parties state that they do not intend any term of this Licence to be enforced by any third parties.

JURISDICTION AND GOVERNING LAW

The validity, construction and performance of this Licence shall be governed by English law and the parties submit to the exclusive jurisdiction of the English Courts.

Watermarks

Where data has been captured at map scales of 1:10 000 or larger, a background watermark to identify the source of the publication is required for electronic output, whereas the watermark is only a recommendation when publishing on paper. The Licensee shall choose its own method of applying a watermark from suitable alternatives as agreed with the Supplier. The purpose of the watermark is not to obscure or change the meaning of the Licensee's publication, but to establish the source of the material and to deter its use for other purposes by third parties. This watermark must appear at least once and cover at least ten percent (10%) of the map image as delivered to the recipient.
