

## Access to Nature

### Regional Targeting Plan - London 10% most deprived Lower Super Output Areas

This table lists the Lower Super Output Areas (LSOA) in London that are ranked as the 10% most deprived in the region, as identified through the Index of Multiple Deprivation. The table relates to Priority 1 of the London Regional Targeting Plan for the Access to Nature Grant Scheme and is intended to help applicants to identify whether their proposed project addresses this priority.

A postcode search is available online to enable people to identify which LSOA a proposed project is located within. This is available at:

<http://neighbourhood.statistics.gov.uk>

This table is drawn from 2004 IMD data obtained from the National Statistics office. The plans will be reviewed annually and at the next review it is likely that the updated 2007 IMD data will be used to identify the most deprived Super Output Areas in London. In the meantime, where applicants are able to demonstrate that the area in which they are working is identified as deprived (ie in the top 10% most deprived LSOAs in London) using the 2007 data, but not by the 2004 data, we are likely to be able to take this fact into account.

Local Authority	Lower Super Output Area Name	SOA Code	Rank within Region	National IMD Rank (1=most deprived)	Regional Deprivation Class
Barking and Dagenham	Barking and Dagenham 001A	E01000027	378	2,840	Worst 5-10%
